

GOLDEN AFRICA SAFARIS

KHOI SAN ANTHROPOLOGICAL LUXURY MOBILE SAFARI IN THE KALAHARI

Two nights experiencing the anthropology and culture of the Ju!hoasi Khoi San on a luxury tented mobile safari, deep in the Kalahari

The relationship between Golden Africa Safaris and this amazing community of indigenous Khoi San goes back many years.

Whilst staying deep in the Western Kalahari, you will see the world through the lens of these incredible people. It will be a journey into the traditional ways of the hunter-gatherer, experiencing their way of life and their culture.

Time drifts away, as we explore the area on foot with them by day, seeing what they see and how they see it, on no set timetable; foraging, tracking, learning and marveling at their intimate knowledge and experience of their landscape.

Evenings are spent around the fire, hearing their stories, seeing and joining in with their traditional games and dances, and experiencing the truly spiritual and fascinating trance dance of the shaman healers.

The knowledge gap from elder to youngster has grown to the point of no return, so this opportunity will be once in a lifetime, whilst these elders are still with us.

See how we can add a different dimension to a normal wildlife safari, by giving your guests this extraordinary experience with people from the oldest bloodline on the planet.

PLACES AVAILABLE: 8 shared spaces (either twin or double)

When

5 – 7 May 2018
