

# OL LENTILLE

## WE ARE AFRICA 2023 TOUR

Come and experience cultural Laikipia!

Ol Lentille is owned by the community and privately managed and in mid 2022 had a complete refurbishment and now reflects a contemporary African style. We are so much more than just game drives – our four private villas in our vast conservation area offer guests a holiday with no fixed schedules and formats. We are a property where you relax, recharge and enjoy private activities like walks, game drives, camel safaris, authentic community experiences, cycling, quad bikes, yoga and spa treatments. You also learn first hand how private partnerships with the community can successfully work in Kenya and might go and see schools, hospitals and water sanitation projects that guest donations have funded. We offer something totally different to anything else in Kenya and would like to welcome WAA 2023 participants to come and experience first hand what we offer. Northern Kenya and our private area will guarantee to take your breath away.

# When

April and May 2023
