## OUR PROMISE

*Committed to the special moments in your life*

*“Each diamond is  
hand-selected straight from the  
mine to your finger”*

## AYANDA<sup>®</sup> TANZANITE

*1000 times more rare than diamonds*

Tanzanite is one of the rarest precious gems on earth. Found only in a short strip of land at the foothills of Mount Kilimanjaro, estimates suggest that within a decade all gem-quality tanzanite will be depleted. Shimansky tanzanite is sourced direct from the tanzanite mines, which contributes towards their sustainability.

Ayanda - The Queen of Tanzanite is a range of exceptional quality handcrafted jewellery that combines tanzanite set with diamonds. All of our tanzanite is certified in accordance with the Tanzanite International Grading Standard, so you can be assured your creation is the rarest of the rare.

## FANCY COLOUR DIAMONDS

*Encapsulating rare natural beauty*

These diamonds capture the luminescence of dawn until dusk. In celestial hues of yellows, blues and pinks, light and life are magically bound in a distinctive Shimansky creation that is crafted for the woman who is as perfect and unique.
