

LEPOGO LODGES NOKA CAMP AND MELOTE HOUSE

SUSTAINABLE SAFARI AT LEPOGO LODGES

You will be met at Johannesburg International and driven up to Lepogo Lodges in the Lapalala Wilderness, an easy 3 hour drive.

Staying at the stunning Noka Camp for 2 nights, you will be able to explore the 50,000 malaria free hectares in the Lapalala Wilderness with your experienced guide. This pristine African Wilderness where we are the only lodge allows a truly unique wilderness experience with wonderful sightings of Africa's most magnificent animals. Amongst other activities are tracking cheetah on foot, visiting original Bushman paintings and a boat safari.

Noka Camp offers spectacular luxury on a 100ft cliff top with world class cuisine, sky beds, heated plunge pools, tree top gym and yoga, spa treatments, sunken baths and astonishing views across the reserve.

Melote House recently opened, is an exclusive use haven, beautifully and sustainably built into the hillside and finished to the highest of standards. Sleeping 12-16, it is a private oasis and an icon of exclusivity. A visit to Melote House will be organised on Day 2.

Both lodges are off the grid providing their own power. Noka has the first solar walkway and is built with less than 1% of the lodge touching the ground.

When

1-3 May and 10-12 May 2024
