ABOUT: UTHANDO

Who We Are

Uthando (Love) South Africa is a multi-award-winning fair-trade in tourism certified non-profit organisation, linking tourism to a supply chain of support for community development projects.

What We Do

At Uthando South Africa, we provide funding (generated through tourism) and donations (generated through engaging humanitarians and purpose-driven companies) to support 60+ community development projects in South Africa (mainly in Cape Town) impacting sectors such as: food -security, education, skills development, arts & culture, health & safety, animal welfare, and seniors.

Why We Do It

The reality is that South Africa faces high levels of poverty, which is at a level of 56.8% (Stats SA, 2025). Poverty leads to generational suffering and inaccess to the resources that will break this cycle.

At Uthando SA, we aim to ignite socio-economic change within impoverished communities, by supporting projects breaking the cycle of poverty through their capacity building programmes. Our purpose is to deepen and expand the impact of 60+ projects and counting, allowing more people to access the benefits of these programmes, and ultimately fostering socio-economic upliftment across South Africa.

EDUCATION

PROBLEM STATEMENT

As per a Statistics South Africa Report (2023), 44.7% of youth aged 15-34, are without education, employment or training. Overall, these figures confirm the disparity within access to education around the country. Some communities are blessed with an abundance of educational facilities, while others are left under-served.

IMPACT

We Are Africa is changing the narrative around access to education within Cape Town's most impoverished communities, by engaging with the Uthando (Love) Social Development Projects supply chain for Education, transforming the lives of our youth, through sponsoring them with high-quality education bursaries.

ZAMA (TRY ON) DANCE SCHOOL

WHO WE ARE

Zama Dance School Trust is an award-winning dance studio located in the heart of Gugulethu, Cape Town.

From a small dream in 1984, the school grew until by 1989 it had become an established Trust and registered NPO. Today, Zama caters for up to 100 students annually from 6 to 17 years old. Open six days a week, students enjoy the expertise of both local and international Ballet teachers.

WHAT WE DO

Students spend a considerable amount of their time at Zama. They attend classes three times a week, or more when preparing for performances or exams.

Mindful that the school does not exist in a vacuum, learners are provided with nutritious meals through the feeding scheme and are encouraged to use the premises to do homework. In some cases, support extends to medical and dental care.

Launched in 2010, Zama's feeding scheme ensures that all students receive a nutritious meal after all their classes. Sandwiches with assorted fillings or hot meals are prepared daily on the premises by Nomtha and are accompanied with fruit and juice or milk.

With no parental overview or adult role models around, these kids fell in with drugs and gangs and Andisiwe wanted to provide them an alternative option to be part of something wholesome and uplifting and so the group was born.

ANIMAL WELFARE

Problem Statement

Uthando (Love) Social Development Projects believes in the ethical treatment of animals, which means ensuring that they do not suffer from abuse, neglect, or starvation, however, in areas where poverty is prevalent, animals do tend to suffer from these challenges due to man's inability to take proper care of our furry friends, for example: Medical bills can be expensive, food may be unaffordable, and in some cases, animals like horses are worked to the bone to generate income for people.

Impact

We Are Africa is supporting the Uthando (Love) Social Development Projects supply chain for animal welfare, going towards animal protection associations, and animal clinics, that are making a positive difference in the quality of life for our furry friends.
