

NASIKIA CAMPS

Serengeti Stargazing

Welcome to the Serengeti – Safari Magic at it's Best

Nasikia Camps offers a three night/four day pre-WAA package to explore the far northern and eastern plains of the Serengeti National Park. Visit the famous Mara River to gain a feel of the gauntlet that the migration herds run and then settle into the exploration of the endless eastern plains. This all inclusive three night journey starts with a flight to northern Serengeti, an area dotted with kopjes and resident wildlife for an overnight wild experience. Continue to the central areas and set off into the wildlife dotted grasslands of the Eastern Serengeti for two nights of bush time. Here you will experience a true adventure of safari life, exploring the plains and kopjes in an open vehicle while viewing incredible ecology and geology. Experience early morning game driving, bush lunch, sundowners by the camp fire and the infinite night skies for stargazing – true Tanzania.
